### Prasad Group launches the complete 3D Movie Production Solution

Prasad Group, a pioneer in post production services and have introduced latest cameras and specialized outdoor equipment in India, launched the first ever complete 3D Movie Production Solution in Mumbai, on 11<sup>th</sup> June. This is an end-to-end service solution for all aspects related to production, post-production and delivery of 3D content for cinemas and other media. Prasad Group has tied up with a Toronto based company, which have been in this domain for many decades now and have provided cutting edge solutions for several feature films, ad commercials and documentaries. Prasad Group plans to offer this service to several projects simultaneously and is currently in discussion with major production houses in India. Previously Prasad Film Labs introduced Panvision Cameras in India and have worked on several blockbusters recently. The launch is expected to be attended by many leading producers, directors, leading stars and cinematographers in large numbers & will attend a one day Workshop for cinematographers conducted by highly experienced technicians from Canada. Those who are interested in taking part in the workshop, can contact Mr. J Naidu, Executive Director of Prasad Group.
